Dear David:

EPA has completed its review of Marvin Windows and Doors' testing failure dispute and determined that model MAR-N-303-04261-00001 will remain certified under the ENERGY STAR Program.

No further action is required at this time.

Thank you.

Required from NFRC

Hello David,

Thank you for allowing us a brief extension getting you this information. Please see the below options which we believe should be included as affected products due to the product failure. Note that we did not include the two which were submitted by you on 12/23/20. We did not feel they would be affected by the failure based on the methods used to determine the affected units.

- MAR-N-303-04261-00001
- MAR-N-303-04309-00001
- MAR-N-303-04327-00001
- MAR-N-303-04345-00001
- MAR-N-303-04393-00001
- MAR-N-303-04411-00001

Please let us know if you have any questions or require any additional information.

Thank you,

Dan Womer

Subject: FenStar Failure (FVT Study Number 20-042-01.01) - Review and Written Confirmation

Required from NFRC

Good morning,

I am requesting assistance from NFRC regarding our recent Notice of Non-Compliance and NFRC's referral to EPA. EPA requires that we complete the Partner Response Form. This request for assistance is in reference to Section V, Part 2 where EPA requires Marvin to list the NFRC CPD number for any product options qualified on the same basis as the product that failed testing.

We have worked with our simulation lab and have listed in addition to MAR-N-303-04261-00001:

- MAR-N-303-04261-00002
- MAR-N-303-04261-00003

EPA requires that any product options we elect to identify “need to be reviewed and confirmed by NFRC prior to review of your submittal” and requires a ‘written confirmation letter from an NFRC representative.”

Will someone from NFRC be able to review, confirm and provided us with the written confirmation letter? EPA requires Marvin to submit the response by January 8, 2021.

Please let us know if you will be able to assist us with this request.

Respectfully,
